WORKWEAR THAT WORKS AS HARD AS YOU DO

THE HARD YAKKA CORE RANGE IS DESIGNED TO KEEP PACE WITH YOUR HARDWORKING LIFESTYLE. WITH DEPENDABLE ESSENTIALS AND INNOVATIVE SAFETY FEATURES, WE DELIVER EVERYTHING YOU NEED TO STAY SAFE, COMFORTABLE, AND PRODUCTIVE ON THE JOB.

DEPENDABILITY

Hard Yakka workwear is your reliable partner in the toughest jobs. Always in stock and meeting the best industry standards, our gear is built to last.

QUALITY AND RANGE

Our collection is designed with your diverse needs in mind. Offering a wide selection of quality workwear, we ensure that no matter your job or budget, you'll find the right fit with Hard Yakka.

PROTECTION

Our workwear isn't just about durability, it's about your safety too. Boasting the highest UPF rating, we provide protection against the harsh Australian environment.

VALUE

Our wide selection and competitive prices make us the smart and affordable option for high-quality workwear.

INNOVATION IN SAFETY COMPLIANCE

Our exclusive Hard Yakka Fade Shade Label (patent number 2012203875) is your ally in safety compliance. This durable, discreet silicone label indicates changes in hi-vis garment colour, ensuring your apparel stays within compliance standards.

Positioned for visibility, the Fade Shade Label keeps its colour despite fabric fading, guiding users and safety officers in assessing the compliance of Hi-Visibility workwear. Compliant with High Visibility: AS/NZS 1906.4:2023 Non-fluorescent Class, Day standard, our Fade Shade Label defines smart, safety-focused workwear.

NOTHING'S TOUGHER

BUILDING A BETTER FUTURE

HARD YAKKA'S PATH TO SUSTAINABLE AND ETHICAL SOURCING

Hard Yakka, as part of Workwear Group, operates within the Wesfarmers framework that ensures we follow strict procedures and product safety requirements and comply with firm standards on ethical production and human rights.

We take full accountability and are responsible for the products we create.

Our key objectives align with our four pillars — people, sourcing, community and environment — which are aligned with the United Nations' Sustainable Development Goals (SDG).

Our mission is clear, to have a positive influence on our community, the products we create and the planet we all share.

Ethical Sourcing & Human Rights

We strive to source products in a responsible manner while working with suppliers to improve their social and environmental practices.

Hard Yakka opposes the use of Modern Slavery practices in all forms and is committed to an ongoing journey of reducing and eradicating the risk of modern slavery in its supply chains and throughout its business operations, both domestically and abroad. We endeavour to source products in a responsible manner while working with suppliers to improve their Ethical & Modern slavery practices.

Being a subsidiary of Wesfarmers, Hard Yakka as a Workwear Group brand has reported publicly on our ongoing journey and performance against abolishing Modern Slavery within our supply chain since 2015. Progress on how we assess, remediate and mitigate Ethical and Modern Slavery risk throughout our supply base is made publicly available through Wesfarmers 2022 Modern Slavery Statement.

We utilise the Sedex platform to streamline ethical sourcing and human rights compliance, monitoring and social compliance audits. To align with global best practice, we use the SMETA 6.1 audit methodology, developed by Sedex. As such, we hold our suppliers accountable in a range of areas including safety practices, legal compliance, labour and human rights, modern slavery, anti-bribery and environmental impact. Our Local Australian Manufacturers are compliant with our ECA Accreditation.

We are committed to collaborating with our people, suppliers and the wider industry, improving working conditions for people employed along our supply chain and strengthen relationships with suppliers. We partner with the Bangladesh Accord (RMG Sustainability Council [RSC]), Ethical Clothing Australia (ECA), Baptist World Aid, Better Cotton and Sedex, and we are constantly looking for new partnerships to ensure we are delivering world-class sustainable objectives. By partnering with industry leading organisations, we guarantee that we are always striving for world's best practice in this ever-growing space.

Our company mission is to be the leading workwear provider and make every wearer feel proud, protected and positive at work, rest or play.

Hard Yakka, as part of Workwear Group, upholds strict standards regarding product quality and safety. Workwear Group quality management system is accredited to the ISO 9001:2015 standard. This system covers every aspect of the production process, from design to finished product. We seek to provide the highest quality products for our customers, and our policies and programs ensure we can deliver on this promise. We conduct strict fabric and product testing and inspection to maintain product performance, safety, and quality during and in the pre- and post-production stages.

SCAN FOR MODERN
SLAVERY STATEMENT

SCAN FOR OUR APPROACH
TO HUMAN RIGHTS

As a member of APCO, Workwear Group is committed to the 2025 National Packaging Targets. Hard Yakka is a trusted brand of Workwear Group and is focused on reducing on-product packaging and increasing recycled content in packaging.

Packaging reduction initiatives that Hard Yakka is working on include:

- Further reducing the number of swing tickets on Hard Yakka products;
- Replacing plastic tags with JUTE twine for Hard Yakka swing tags;
- Reducing excess plastic packaging from Hard Yakka footwear range and providing one swing tag only;
- Reducing the number of garment polybags by introducing a single carton liner for high volume Hard Yakka products.*
- A partnership with Reground to collect and recycle coloured soft plastic. Reground creates a community around waste resources and our current waste disposal structure to minimise the number of coffee grounds, chaff and soft plastic ending up in landfill.
- Rebranding our new warehouse cartons to ensure the end user knows how to dispose of the packaging correctly.
- Ensuring all footwear boxes are made from fully recycled cardboard and advising customers that branded cardboard cartons are Forest Stewardship Council (FSC®) certified and should be recycled.

Responsible Fabrics & Responsible Sourcing

We're on a mission – a mission to improve cotton farming globally.

Hard Yakka, as part of Workwear Group, has committed to sourcing 100 per cent of its cotton from preferred or 'more sustainable sources' by 2025. 'More sustainable' cotton includes Better Cotton, Australian Cotton, organic cotton and recycled cotton. Hard Yakka, as part of Workwear Group, has taken a step forward in our sustainability journey by partnering with Better Cotton to improve cotton farming practices globally.

Better Cotton trains farmers according to best-farming practices covering efficient water use, soil health care, harmful pesticides and fertiliser reduction, and respect for worker rights and wellbeing. As of FY22, 65 per cent of our cotton is sourced as Better Cotton, ahead of our 2025 target. Better Cotton is sourced via a system of 'mass balance'. While the cotton fibre itself is not physically traceable to end products, Better Cotton farmers benefit from the demand for Better Cotton in equivalent volumes to those we 'source'.

Better Cotton brings together farmers, ginners, manufacturers, retailers, brands, civil society and grassroots organisations in a unique global community committed to developing Better Cotton as a sustainable mainstream commodity.

*Removing polybags is not feasible in some instances, as it might lead to damage, mould or dirt that makes the garment unfit for sale. In such cases, the environmental impact of using a polybag to protect the garment is perceived as lower than having to discard the garment in question. Workwear Group strives to find solutions to reduce or eliminate plastic bags wherever possible.

ICONS GUIDE

EXCELLENT UPF RATING

An Ultraviolet Protection Factor (UPF) rating for Ultraviolet Radiation transmitted through a fabric onto the skin. Look for garments with a 50+ rating to be assured of excellent protection. Complies with AS/NZS 4399:2017 Sun Protection Clothing Classification.

HI-VIS DAY

A garment that uses hi-vis materials for daytime use only. The hi-vis material must encircle the upper torso. Complies with AS 4602.1:2011 Hi-vis Safety Garments Class Day.

HI-VIS DAY/NIGHT

For use in day, night, dawn, dusk or in poor weather conditions where there is illumination from headlights. Complies with AS 4602.1:2011 Hi-vis Safety Garments Class Day/Night.

HI-VIS NIGHT

Garments designed for night use using retro reflected light. Complies with AS 4602.1:2011 Hi-vis Safety Garments Class Night.

REFLECTEC

Reflective tape used on Hi-vis night garments.

LIGHTWEIGHT FABRIC

Fabric is lightweight to keep you cool and comfortable.

BREATHABLE

Hard Yakka products that feature fabrics with naturally breathable properties, to keep you cool and comfortable all day.

STRETCH

Features stretch for the ultimate in comfort by allowing for a full range of movement, no matter what the task at hand is.

MOISTURE MANAGEMENT

Fabrics designed to keep you dry and comfortable: moisture wicking, quick drying and breathable.

COOL FLOW

Engineered ventilation placed in high heat zones to allow air to flow through to the body, improving breathability and keeping the wearer cool and comfortable.

WATERPROOF

Garments constructed with waterproof fabrics and have been seam sealed to prevent water penetrating the inside of the garment.

SEAM SEALED

Stitching seams with waterproof fabric to prevent leaking when raining, and maximise waterproof capabilities.

TRIPLE STITCHING

Triple stitching assists with the reinforcement of the garment in stress points to make it extra tough and durable.

THERMAL INSULATION

A barely-there feel with minimal weight, while trapping in the warmth. Thermal insulation while being lightweight.

EASY CARE

Washing and ironing are a breeze for garments featuring the Easy Care icon. You'll look smarter for longer with minimal effort when you choose Easy Care.

WATERPROOF 10,000MM H₂O

A jacket in this range will withstand most downpours as well as heavy snow.

FADE SHADE®

Helps you identify any change in garment colour. Fade Shade is a discreet, silicone label that serves as an indicator to show the point at which hi-vis shades become non-compliant. (Patent number 2012203875)

TECHNOLOGIES GUIDE

STAIN REPELLENT

Bionic finish is a stain repellent that keeps your garments looking good for longer.

DURABLE WATER REPELLENT

Durable water repellent finish sheds water from the garments surface.

ANTIMICROBIAL

Minimise bacteria and odours with Hard Yakka's range of garments treated with antimicrobial finish. You'll end the day as fresh as you started.

AUSTRALIAN COTTON

This product is made from Australian cotton, grown by Australian farmers and known for its strength and quality. Hard Yakka proudly supports the Australian cotton industry. You can find products made with Aussie cotton in some of our ranges.

BETTER COTTON

We partner with Better Cotton to improve cotton farming globally. Better Cotton is sourced via a system of mass balance and is not physically traceable to end products.¹

SUPERCREASE®

We know it's important to look good no matter what the day throws at you. Hard Yakka garments treated with Supercrease will ensure you look as polished and sharp at the end of the day as you did at the start of the day.

1. WWG (and it's brands) are committed to sourcing 100% of our cotton as preferred ('more sustainable') by 2025. Preferred cotton includes Better Cotton, Australian cotton, recycled cotton and organic cotton.

Long Sleeve Shirt With Tape

HARD YAKKA HI-VIS WORKWEAR MEETS RELEVANT AUSTRALIAN STANDARDS, AS 4602.1:2011 FOR HI-VIS SAFETY GARMENTS.

IMPORTANT LIMITATIONS OF USE

Under no circumstances should Class Day (D) garments be worn for visibility purposes at night. Any markings, attachments, screen prints or other alterations, accessories or coverings not incorporated into the original product may not only void the garment's compliance with the appropriate standard, they may also put the user at risk by reducing the hi-vis performance of the garment.

The hi-vis properties offered by Hard Yakka Hi-vis garments may be lessened due to normal wear over time or if the fabric is stretched. Hard Yakka Hi-vis garments using natural fibres have been tested and comply to Australian Standards AS 4602.1:2011 Hi-vis Safety Garments in dry conditions. Wet conditions may alter the compliance of these fabrics to the standard and appropriate care should be taken.

According to the Australian Standard, materials classified as hi-vis for daytime use must be manufactured from a durable fabric of woven or knitted cotton or equivalent man-made fibre that contains a fluorescent pigment or other hi-vis dye, or to which a fluorescent plastic coating has been applied.

These materials are subjected to the following tests and must meet or exceed specified minimum requirements for:

- Daylight colour and luminance factor
- Colourfastness to light
- Colourfastness to washing
- Colourfastness to perspiration
- Colour retention testing

In some cases, for safety reasons, a garment must be made from a natural fibre incapable of retaining a fluorescent colour. In these instances, the material is tested for luminance for non-fluorescent materials. Alternatively, man-made fibres are generally capable of retaining a fluorescent colour and are therefore tested for luminance for fluorescent materials. The fabrics used in the manufacture of Hard Yakka Hi-vis workwear are tested and must meet or exceed specified minimum requirements for:

- Chromaticity
- Luminance for fluorescent materials
- Luminance for non-fluorescent materials

'FADE SHADE' INNOVATION

The Hard Yakka Fade Shade Label (patent number 2012203875) helps you identify any change in garment colour. It is a discreet, silicone label that serves as an indicator to show the point at which hi-vis shades become non-compliant. This label retains its colour through wash and wear, even when the fabric on the garment fades. Positioned on the front of the garment, this innovation makes it easy for Health and Safety officers and employees to assess when Hi-vis apparel may no longer be compliant. The Hard Yakka Fade Shade label is a fully patented Workwear Group innovation and is designed to show its compliance to Hi-vis: AS 4602.1:2011, Non-fluorescent Class, Day.

UPF RATINGS

HARD YAKKA KNOWS A THING OR TWO ABOUT AUSTRALIA'S UNIQUE WORK CONDITIONS. THAT'S WHY MOST HARD YAKKA WORKWEAR IS RATED UPF 50+ FOR EXCELLENT PROTECTION AGAINST THE HARSH AUSTRALIAN SUN.

In fact, as you can see from the table below, when it comes to protection from harmful UV rays, Hard Yakka is a tough act to follow. All Hard Yakka workwear has been tested by independent, accredited laboratories and rated according to Australian/New Zealand Standard AS/NZS 4399 Sun Protection Clothing Classification.

There are many important factors that should be considered when selecting your Hard Yakka workwear. The UPF rating is for the fabric only, and does not take into account the design of the garment.

For outdoor workers, Hard Yakka recommends garments that cover the maximum area of the body. For example, Hard Yakka workwear with full arm and leg coverage should be selected. To ensure complete protection, a hat and sunscreen should also be worn.

Finally, the UPF protection offered by the garment may be lessened if the fabric is stretched, wet, in close contact with the skin, or worn out due to wear and tear over time.

| UPF RATING | RATING UVR PROTECTION CATEGORY |
|------------|--------------------------------|
| 15, 20 | GOOD PROTECTION |
| 25, 30, 35 | VERY GOOD PROTECTION |
| 40-50, 50+ | EXCELLENT PROTECTION |

FITTING GUIDE

MEASURING GUIDELINES

Each tailor and patternmaker has his or her way of measuring. This fitting guide will help to ensure a consistency of approach.

- Do not take your measurements yourself
- Ask a professional dressmaker or tailor to take your measurements for more accuracy
- Wear light clothing as thicker garments like jumpers and jeans will add to measurements
- Remove items from pockets such as wallets in the back hip pocket
- Measure with the tape flat against the body
- Do not hold the tape too loose or too tight
- Do not put fingers under the tape

- 1. CHEST/BUST** CM Measure around the body across the fullest part of the chest, keeping the tape level and straight.
- 2. WAIST** CM Women: Measure around the natural waistline, keeping the tape level and straight. Men: Measure the waist where they wear their pants.
- 3. HIP/SEAT** CM Women only: Measure at the widest point (approximately 20–23cm) below the waist. At this position the tape should slide easily up, down and over the bottom.
- 4. NECK/COLLAR** CM Men only: Measure the circumference at the base of the neck, where a shirt collar would sit or using a well fitting shirt, lay flat on table, measure from centre of button to centre of button hole.
- 5. IN-LEG LENGTH** CM Measure from crotch to floor without shoes.

FIT GUIDE

SLIM

Close fit, Slim through the hip, thigh and leg.

STRAIGHT

Modern, easy fit, accommodating a wide range of movement for all day comfort.

RELAXED

Generous fit with plenty of room to move.

REGULAR

Cut for a comfortable and functional fit for athletic body types. Only for tops.

CONTACT US

The Workwear Group offers flexible electronic ordering solutions for our customers.

Workwear Online offers you 24 hour access to manage your account. It is a quick and simple way to order your workwear online. Our e-trading solutions are security enabled, offer flexible payment methods, track and trace, available stock visibility, order status and history, invoice and credit copy downloads, catalogue downloads, customisation of ranges/favourites and more.

For online ordering, simply request secure access to www.workweargrouponline.com.au via your Account Manager / Sales Representative.

PLACING ORDERS

1. Log in to www.workweargrouponline.com.au
2. Browse products by selecting the Hard Yakka catalogue or by entering the style name/product number in the "Product Search" field.

3. Select the product by clicking on the name or image of your choice.
4. Enter the quantity in the desired size/colour box.
5. Add the selected products to your shopping cart by clicking "Add to Cart" at the bottom right corner of the screen.
6. To add more products, repeat steps 1-5.
7. When you have finished filling your Shopping Cart, place the order with Hard Yakka by following 3 quick steps:
 - a. Go to Cart/Checkout
 - b. Review your items and click on "Checkout" where your own order reference number can be added at this stage
 - c. Click "Place Order" (an email will be sent to your registered email address as confirmation of your order)

Please note printed stock availability dates in this catalogue are an indication only and may be subject to change.

For further assistance, please contact your Sales Representative or contact our Customer Service on 1800 644 517.
