

FASTAID 
First Aid...for life

Products Guide **Edition 7**

Welcome

FastAid lead the wholesale first aid market. Even Google recognise this, with FastAid listing the number 1 ranking for 'wholesale first aid'!*

To put it simply, we are a national wholesaler of First Aid Kits and almost anything medical. We successfully supply hundreds of happy distributors in Australia and New Zealand.

Our seeds are from the Infa-Secure Group, a nation-wide successful and innovative child-safety restraint company. Since Infa-Secure's inception in the 1950s, the company has gone from strength to strength through continued innovation and dedication to the success of its distributors. With the knowledge and passion for safety regulations, compliance and standards, FastAid has changed the complete nature of first aid compliance to make 'first aid fast and easy'.

FastAid has evolved since its launch in 2004 into the first aid and medical sector to become the market leader in First Aid Kits. Our head office and central distribution centre is in Western Sydney, with an additional distribution centre in Perth, Western Australia.

Mission Statement

We are committed to making first aid fast and easy.

*As at Jan 2018.

Our customers trust us because we stick to our word. We give them the best service - guaranteed. We care about them. We help them. We make it easy for them. They just get on with growing their business.

With FastAid, so can you.

From OHS to WHS - The new National Work Health & Safety Laws

July 2012 saw the introduction of a new National harmonised Code of Practice, providing practical guidance on how to comply with duties under the WHS Act and Regulations. The all new FastAid R-Series Range displayed in this catalogue complies with this code of practice as well as still covering compliance with Victorian and West Australian State regulations.

R-Series... Making First Aid fast and easy.

3 EASY STEPS TO CHOOSE YOUR FIRST AID KIT

STEP 1. Workplace Type

Tick only one of the options A-D that best describes your workplace type.

STEP 2. Other Risks

Identify and tick any or all of the other injury options E-G.

STEP 3. Choice & Quantity

Review rows that you have ticked (A-D), other injury options (E-G), and choose the best kit type (A-D), other injury options (E-G), and quantity (1-25).

Disclaimer: This table is a quick guide only to choosing your First Aid Kit. A full risk assessment should be conducted by qualified personnel for your workplace, to ensure you have the right kit for your workplace.

DID YOU KNOW?

Work vehicles are considered a workplace.

“A portable First Aid Kit should be provided in the vehicles of mobile workers if that is their workplace (for example, couriers, taxi drivers, sales reps, bus drivers and inspectors)”

FIRST AID KITS FOR COMMERCIAL VESSELS

What is NSCV?

National Standard for Commercial Vessels (NSCV)

The NSCV is the Legislation and Marine Safety Standards which govern health and safety for commercial vessels. NSCV is a standard that covers aspects of vessel design and construction which are vitally important to the health, safety and wellbeing of passengers and crew.

Between 2005 - 2008 there were 2,760 reported incidents onboard commercial vessels in Australia.

**Are you prepared with an NSCV
compliant First Aid Kit?**

See page 32 for more detail.

Is your Workplace a Remote Area?

What is a remote area?

Where an employee or group of employees does not have timely access (more than a 20 minute drive) to an appropriate hospital or medical centre capable of mounting an emergency response or ambulance station staffed by paid paramedics. For isolated, remote locations or mobile workplaces, employees need to have access to appropriate First Aid Kits.

DO I NEED AN R3 FIRST AID KIT?

R3 Kits are recommended to be used as a central Kit for larger sites where multiple kits are required.

“Where there are separate work areas (for example, a number of buildings on a site, or multiple floors in an office building), it may be appropriate to locate first aid facilities centrally and provide First Aid Kits in each work area. This may include portable First Aid Kits in motor vehicles and other separate work areas.”

Source: 2016 First Aid in the Workplace Code of Practice, SafeWork Australia, Section 2.2

R2 Kits are recommended for your portable First Aid Kits.

R3 RANGE

The FastAid R3 Series First Aid Kits. The premium solution for a central First Aid Kit in your workplace. The R3 range is ideal where multiple Kits are required, or even if you simply want a premium Kit.

FIRST AID KITS FOR COMMERCIAL VESSELS

What is NSCV?

National Standard for Commercial Vessels (NSCV)

The NSCV is the Legislation and Marine Safety Standards which govern health and safety for commercial vessels. NSCV is a standard that covers aspects of vessel design and construction which are vitally important to the health, safety and wellbeing of passengers and crew.

Between 2005 - 2008 there were 2,760 reported incidents onboard commercial vessels in Australia.

Are you prepared with an NSCV compliant First Aid Kit?

30nm out to sea is not the moment to realise you need a First Aid Kit.

Be Prepared!

R3 | Marine Pro Kit

Needle Safe 360 Glove

- Needle-Safe gloves are patented sharps handling gloves that are lined with a new generation material that is essentially very closely woven Aramid & Kevlar fibres coated with a tough nitrile coating on the top side. This material is renowned for providing excellent puncture resistance to surface materials.
- Designed to protect hands from hazards such as very fine punctures like syringes, very fine glass splinters, barbed and razor sharp wires.
- Needle-Safe gloves bring peace of mind to all users. They are very highly rated for abrasion, cut, tear and puncture.

ABRASION	●●●	3 / 4
CUT	●●●●●	5 / 5
TEAR	●●●●	4 / 4
PUNCTURE	●●●●	4 / 4

- Easy on, easy off. Easy hook & loop fastening tabs for ultimate comfort, adjustability and ease of fitting.
- Unrivalled 360 degree protection. Tested to EN388 on palm only but the same patented material is used all over the glove to give protection on the palm, fingers and on the back of the hand.
- 3 layer protection and performance system:
- Testing & Certification: Needle-Safe 360 gloves have been tested and certified to norms RD 1407/1992, EN420 : 2003 and EN388 : 2003. Listed under CE CATEGORY 2

CODE
GAS400

HIGHEST CUT & PUNCTURE RATING

Needle Pro Sharps Handling Glove

Trek ProLok Head Immobiliser

- Durable plastic coated Head Immobiliser.
- Complete with straps for easy fitting to Trek Backboards and Scoop Stretchers.
- Minimal interference with X-ray, MRI or CT scan procedures.
- Easy-to-clean waterproof coating prevents bacterial growth within the unit and is resistant to bodily fluids.
- Large ear holes for easy access to the patients ear area without removing the Immobiliser.

CODE	COLOUR
RAI260	Orange

Trek Scheren Emergency Hammer & Scissors

- Extremely heavy duty emergency scissor ideal for rescue applications that require clothing, seatbelts or harnesses to be cut and windows to be smashed easily with speed and efficiency.
- Heavy Duty Stainless Steel blades with plastic handle for hammer use, and rubber lined finger holes for scissor use.

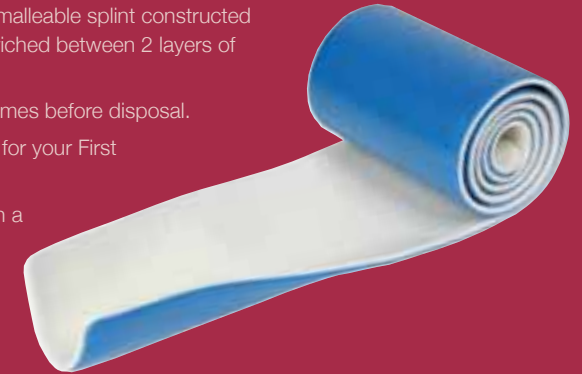

CODE
FRI110

Trek Curva-Splint Aluminium Splint

- New generation extremely malleable splint constructed from aluminum alloy sandwiched between 2 layers of durable closed cell foam.
- Can be reused numerous times before disposal.
- Amazingly compact – ideal for your First Aid Kit or emergency pack.
- Radiolucent and available in a range of different sizes.

CODE	DIMENSIONS	COLOUR
RAS011	UNROLLED - 90cm (L) x 11cm (W)	Blue

Trek EzyNek Pro Cervical Collar

- Professional Cervical Collar that fits all adult patients and delivers comfort with superior immobilisation.
- Easy front and rear access via an oversized trachea hole to allow for pulse checks etc.
- Push locks for maintaining correct height positions.
- Adjustment tracks to ensure symmetrical height alignment.
- Soft foam padded inner sides ensure patient comfort.

CODE	COLOUR
RAC210	Blue / Yellow

Trek 360 Multifunction Stretcher

- Very simple, easy to use and durable.
- One handed operation to convert easily from a stretcher to a chair with multi positions.
- Easily adjustable, gas-assist backrest with infinite positions.
- Maximum versatility for patient transport and is ideal for confined spaces such as tight hallways, small elevators and narrow staircases, eliminating the need to transfer the patient.
- Multi-position chair and lay flat for patient examination.
- Collapsible frame for ground level operation and vehicle loading.
- Swing down side arms for convenient patient transfer.
- Stainless steel, anti-corrosive frame.
- Pull off, easy to clean mattress with patient straps.

FIRST AID ROOM

- +** *DO I NEED A FIRST AID ROOM?*
- +** *FIRST AID ROOM FIT-OUT*

Do I need a First Aid Room?

A First Aid Room should be established at the workplace if a risk assessment indicates that it would be difficult to administer appropriate first aid unless a First Aid Room is provided.

A First Aid Room is recommended for:

- **Low Risk workplaces with 200 workers or more.**
- **High Risk workplaces with 100 workers or more.**

Is my Workplace Low or High Risk?

Low Risk workplace means a workplace where workers are not exposed to hazards that could result in serious injury or illness such as offices, shops or libraries. Potential work-related injuries and illnesses requiring first aid would be minor in nature.

High Risk workplace means a workplace where workers are exposed to hazards that could result in serious injury or illness and would require first aid. Examples of workplaces that may be considered high risk are ones in which workers:

- use hazardous machinery (e.g. mobile plant, chainsaws, power presses and lathes)
- use hazardous substances (e.g. chemical manufacture, laboratories, horticulture, petrol stations and food manufacturing)
- are at risk of falls that could result in serious injury (e.g. construction and stevedoring)
- carry out hazardous forms of work (e.g. working in confined spaces, welding, demolition, electrical work and abrasive blasting)
- are exposed to the risk of physical violence (e.g. working alone at night, cash handling or having customers who are frequently physically aggressive)
- Work in or around extreme heat or cold (e.g. foundries and prolonged outdoor work in extreme temperatures).

The First Aid Room

MULTI-FUNCTION PATIENT CHAIR

- Multi-function patient chair designed for dual use as a chair and also as a lay-flat first aid bed.
- Durable powder coated steel frame with padded armrests for comfort.
- High quality PU surface for easy cleaning with foam padding for patient comfort.
- Foldable, with three sections and pillow piece.
- Four casters for mobility and brake to prevent slipping whilst in use.

Dimensions: Seat - 63cm (L) x 62cm (W) x 90cm (H)
Laying Flat - 197cm (L) x 63cm (W)

Code: FAC201

EXAMINATION TABLE

Examination table, stainless steel frame, leather upholstered couch, adjustable head section up to 70 degrees.

Dimensions: 180cm (L) x 60cm (W) x 73cm (H)

Code: FAE300

PRIVACY SCREEN

Privacy screen, four-fold with wheels, stainless steel frame.

Dimensions: Open - 200cm (W) x 189cm (H)
Closed - 50cm (W) x 189cm (H)

Code: FAP004

STEPS

1 Step, stainless steel frame.
Dimensions: 40cm (W) x 20cm (H)

Code: FAS401

2 Steps, stainless steel frame.
Dimensions: 40cm (W) x 36cm (H)

Code: FAS402

BLANKETS

Blanket, cellular, 100% cotton, single bed, blue.

Code: FAB640

Blanket, wool rich 70%, single bed, grey check.

Code: FAB644

HAND CLEANERS & DISPENSERS

Liquid soap dispenser, 1L refillable, wallmount.

Code: WHD110

Anti bacterial soap, 5L bulkpack for filling and refilling 1L soap dispenser.

Code: WHS155

HAND TOWELS & DISPENSERS

Slimline folded towel dispenser, durable ABS plastic, lockable with viewing window.

Code: WRD009

Folded paper towel to suit slimline dispenser, 230 x 230mm, 3200 towels per buy.

Code: WRT090

MAGNIFYING LAMPS

Magnifying lamp, magnifying LED with G clamp.

Code: LML700

PILLOWS & PILLOW CASES

Pillow, allergy free. Dimensions: 650 x 400 x 150mm

Code: FAB610

Pillow case, disposable cello.

Code: FAB615

Pillow case, polyester cotton white.

Code: FAB614

SHEETS

Sheets, disposable sheet cello, single bed size.

Code: FAB636

Sheets, polyester cotton white flat, single bed size.

Code: FAB620

TORCHES / EMERGENCY LIGHTING

Penlight torch plastic white with pupil size guide.

Code: LTP001

Torch, "AA" X 2, Krypton Bulb, Batteries Included.

Code: LTH02AA

TROLLEYS

Trolley, stainless steel construction, 2 shelves with wheels and pull out drawer.

Dimensions: 55cm (L) x 50cm (W) x 105cm (H)

Code: FAT521

STAINLESS STEEL BOWL

2L capacity non-rust stainless steel bowl.

Code: FRI150

FIRST AID KITS (R4)

See page 34.

WASTE DISPOSAL

Garbage bin, tidy bin white swing top 27 litre.

Code: WGB030

Garbage bag, clinical waste bag 51 x 66cm, 27 litre.

Code: FRA060

CRUTCHES

Crutches, stainless steel frame, adjustable height with soft armpads and hand grips.

Size: LARGE Code: FAC280L

Size: MEDIUM Code: FAC280M

STRETCHERS

Trek Badger II Pole Stretcher, 2 fold, aluminium frame, 159kg load limit.

Dimensions: 221cm (L) x 53cm (W) x 15cm (H)

Code: RSF102

FIRST AID ROOM CABINET COMBO

Heavy Duty laminated underbench and overhead cupboard, easy to wipe clean with adjustable shelves. Includes laminated bench top.

Code: FAC100

**Need
Defibrillators?
See page 70.**

DEFIBRILLATORS

You can't choose when Sudden Cardiac Arrest will strike.

But You Can Be Prepared.

Sudden Cardiac Arrest can happen to anyone, anywhere, at any time. When it happens, a HeartSine Automated External Defibrillator (AED) can make the difference between life and death.

An AED can be used by untrained bystanders to increase the survival rate for SCA up to 75% by delivering a life-saving shock within the first few minutes of an attack.

For our full range of Defibrillator accessories, cabinets and trainers, please call us on 1800 13 12 11.

HeartSine Samaritan 350P Defibrillator (Semi-Automatic)

- Public Access Defibrillator with CPR Coaching
- Compact
- Easy-to-Use
- Lifesaving Technology
- Designed for use in public areas by providing a sophisticated defibrillator for a adult or pediatric use, inside a lightweight and easy-to-operate system.
- Portable and lightweight. (1.1kg/2.4lbs).
- Durable, resists shock and vibration and carries an IP56 rating against dust and moisture ingress. Also carries a 10 year unit warranty.
- Utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™ Biphasic Technology (an escalating and low-energy waveform that automatically adjusts for the patient impedance differences) to access rhythm and recommend defibrillation if necessary.

HeartSine Samaritan 500P Defibrillator

- Public Access Defibrillator with world leading CPR Advisor
- Provides all the advantages of the 300P with the addition of an innovative CPR advisor.
- Easy-to-follow visual and voice prompts. Guides a user through the entire process.
- Built-in confidence, uses an Impedance Cardiogram to assess the effectiveness of the CPR.
- Always ready. A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. Device automatically runs self check each week.
- Durable, resists shock and vibration and carries an IP56 rating against dust and moisture ingress. Also carries a 7 year unit warranty
- Utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™ Biphasic Technology (an escalating and low-energy waveform that automatically adjusts for the patient impedance differences) to access rhythm and recommend defibrillation if necessary.
- Two Parts, one expiration date. Pad-Pak™ cartridge combines battery and electrode pads, with one expiration date to monitor.
- Low cost of ownership. Cartridge has a shelf life of 4 years from the date of manufacture.

RETAIL READY PACKAGING

FastAid is committed to creating a seriously powerful brand image in your retail store. We welcome our new market leading retail packaging to our collection of solutions that help make first aid faster and easier for you. Our new retail packaging is applicable to our complete First Aid Kit range and is focused on making first aid a “self-sell” in your retail store.

Complete with product specs, contents lists, barcodes, features & benefits and other great contents, we know this will revolutionise your retail sales!

1 Hang Sell Capability

Convenient! Display your First Aid Kits on a shelf or hang sell – it’s up to you!

2 Features & Benefits

Key selling features for buyers to understand the benefits of each First Aid Kit.

3 Product QR Code

Scan for more information about each First Aid Kit.

4 Product Contents

See exactly how much and what is in each First Aid Kit.

5 Product Barcode

Speed up retail sales through barcode scanning.

6 Compliance & Regulation Info

Know exactly which regulations each First Aid Kit exceeds.

CUSTOM BRANDING

Solutions to build your brand, like you've never seen before!

FastAid is excited by the latest release of 'Custom Branding Solutions', as a showcase of our market leading capabilities for custom branded First Aid Kits. We've spent a lot of time building our brand and so have you, so it is important we deliver custom branded solutions that truly represent the power and uniqueness of your brand.

We now have a dedicated range of First Aid Kits that can be custom branded to your specific requirements. Ask for your copy of a Custom Branding catalogue today!

EMPOWER YOUR BRAND. *CUSTOMISED CASE PRINTING*

We have a wide range of custom case printing options available. From screen printing (up to four colours) right through to die-cut PVC sewn labels of embroidery, we really can create a compelling piece of branding material for you.

Guide to First Aid Regulations and Guidelines in Australia

WHS (WORKPLACE HEALTH & SAFETY) WHAT IS 'WHS'?

The 'Work Health & Safety Act' (WHS) is the agreed harmonisation of each state and territory's OHS legislation to develop a new national law by Safe Work Australia.

IS 'WHS' GOOD FOR ME?

Yes, WHS simplifies 8 old laws into 1 new national law. This overcomes confusion and entitles all Australian workers to the same work health and safety standards regardless of where they work.

WHO REGULATES AND ENFORCES THE NEW 'WHS' LAWS?

Safe Work Australia does not regulate compliance and enforcement of the 'WHS' laws. It is conducted by each state or territory's body such as WorkCover, WorkSafe or SafeWork.

HAVE ALL STATES AND TERRITORIES IMPLEMENTED THE NEW 'WHS' LAWS?

Yes, all apart from WA and VIC. Both are committed to or support the principle of national

harmonisation. FastAid manufactures First Aid Kits to cover the existing VIC and WA regulations as well as the new WHS regulation.

WHAT DOES 'WHS' MEAN FOR ME?

Essentially, the WHS change means you are or will soon be required to replace or update your current First Aid Kits.

SO, HOW DO I CHOOSE THE CORRECT 'WHS' COMPLIANT FIRST AID KIT?

FastAid makes it easy for you to comply! Simply follow the R-Series on page 2-3 of our Edition 6 catalogue to quickly choose your First Aid Kit/S. Visit www.fastaid.com.au/regulations for more information and for links directly to relevant Acts, Regulations and Government Resources.

NSCV (NATIONAL STANDARD FOR COMMERCIAL VESSELS) WHAT IS NSCV?

Part of the National Standard for Commercial Vessels (NSCV) defines suitable First Aid Kit standards for the different classes of commercial and fishing vessels.

HOW DO I CHOOSE THE CORRECT NSCV COMPLIANT FIRST AID KIT FOR MY VESSEL?

Visit www.fastaid.com.au/regulations for the latest guide and matrix to choosing a suitable FastAid First Aid Kit compliant to current NSCV requirements.

ACECQA (AUSTRALIAN CHILDREN'S EDUCATION & CARE QUALITY AUTHORITY) WHAT IS ACECQA?

The National Quality Framework (NQF) by ACECQA establishes higher standards for all education and care services in Australia so children to age 13 years get the best possible start in life. The program sets levels of safety and quality to benefit all children and their families who use approved education and care services.

HOW DO I CHOOSE A SUITABLE FIRST AID KIT FOR COMPLIANCE WITH ACECQA REQUIREMENTS?

Visit www.fastaid.com.au/regulations for the latest guide and matrix to choosing a suitable FastAid First Aid Kit to meet current ACECQA requirements.

ARE THERE AUSTRALIAN STANDARDS FOR FIRST AID KITS?

Yes. 'AS2675-1983 Portable First Aid Kits for Use by Consumers' is the applicable standard.

ARE FASTAID FIRST AID KITS COMPLIANT TO AUSTRALIAN STANDARDS?

Yes. Our R1 Series First Aid Kits exceed AS2675-1983 (Size A) requirements and our R2, R3 and R4 Series First Aid Kits exceed AS2675-1983 (Size B) requirements.

Visit www.fastaid.com.au/regulations for further information and links to Australian Standards downloads.

ISSC 14 - GUIDE TO ELECTRICAL WORKERS' SAFETY EQUIPMENT WHAT IS ISSC 14?

ISSC 14 is a Guide to Electrical Workers' Safety Equipment issued by the Industry Safety Steering Committee (ISSC). The Guide's prime purpose is to ensure the safety of electrical workers. In relation to First Aid Kits, the ISSC 14 document has a guide to portable First Aid Kits suitable for electrical workers.

DOES FASTAID HAVE ISSC 14 COMPLIANT FIRST AID KITS?

Yes. Our R2 Series Electrical Workers First Aid Kit with the additional ISSC 14 Module complies with ISSC 14 requirements, as well as WHS. For current information and web links for further reading on ISSC 14, please visit www.fastaid.com.au/regulations.

ARTG (AUSTRALIAN REGISTER OF THERAPEUTIC GOODS) OR TGA (THERAPEUTIC GOODS ADMINISTRATION) WHAT IS THE TGA?

The Therapeutic Goods Administration (TGA) is Australia's regulatory authority for therapeutic goods. This government department carries out a range of assessment and monitoring activities to ensure therapeutic goods available in Australia are of an acceptable standard with the aim of ensuring that the Australian community has access, within a reasonable time, to therapeutic advances.

WHAT IS THE ARTG?

The publicly accessible version of the Australian Register of Therapeutic Goods (ARTG)

(<https://www.ebs.tga.gov.au>) is the reference database of the Therapeutic Goods Administration (TGA). It provides information on therapeutic goods that can be supplied in Australia.

IS FASTAID REGISTERED ON THE ARTG?

Yes. FastAid's registration number on the ARTG is 128314.

IS ARTG REGISTRATION ESSENTIAL?

To be a manufacturer and/or sponsor of First Aid Kits, it is essential to be registered on the ARTG. Heavy fines apply for non-registration, or selling non-listed First Aid Kits.
